ELITE SKILLS AND SPECIAL NOTES

Sniper Pods (supplement 3)

The Command APCs may **designate** ATGWs for the missile jeeps giving, effectively, 'fire and forget' capability to the missiles: using drones, as long as a Command APC remains in play, it is always assumed to have line of site on the target as long as it is in sight in phase 5a. Alternatively, it may act as **superior spotting for Mortars and Artillery**: +1 QR. A sniper pod may only spot for one single artillery or mortar strike per turn and the target area must be in line of site to the sniper. Alternatively - if not designating or spotting - it may fire as an infantryman **Sh 2, FP2/2**. The 'sniper-pod' may not be targeted as a separate entity, nor is there a need for a detection roll from opposing forces: the player using it declares that the vehicle TU so equipped is fitted with a 'sniper pod'. The 'Sniper' doesn't cost any LPs to 'move' (it moves with the vehicle TU for free) and only the single LP to activate in the usual way a sniper would (see page 120 of The Crucible).

Limited Repair - damage rolls of a 1 or 2 ALL GS vehicles (like the Calliope variant, right) can have their movement result **only** negated by making a quality roll. This is based on the High-tech, self-sealing skirting system used by these vehicles. This costs an extra 100pts. For any detachment that uses any of these vehicles and this has already been built into the costs of those detachments.

Gull Systems GS1018 Calliope

Enhanced Data Link (supplement 4): Any TU can passively act as a forward observer for both ATGWs and Artillery. This costs an extra 200pts and this has already been built into the costs of the vehicles that carry the equipment. If the vehicle is lost, this enhancement is removed.

Communication Technician (supplement 4): All officers in detachment gain +2 LPs. This is already built into the LPs for the officers on the main sheet. This costs an extra 200pts and this has already been built into the costs of the vehicles that carry the equipment. If the vehicle is lost, this enhancement is removed.

For ben Medhi if present:

Although ben Medhi is a Colonel he is often to be found in the front line. He may be substituted for the commander of any force of two detachments or more. He has the following Elite Skills:

Command Material: When rolling for LP, roll 3d6 and pick the best two dice.

Morale Officer: 50% check becomes 25% strength; if using When Bullets Fly optional morale rules (page 126) each TU gains +1 to the morale QR die roll to remain on the field.

For 'Stack' Mboko if present:

Although Mboko retains the rank of sergeant he has the effective rank of a Major is the 2IC for Colonel ben Medhi and is often to be found in the front line. He can be substituted for any commander, even if only one detachment is present.

He has the following Elite Skills:

He is effectively a **Major**.

Dauntless: During the removal of suppression markers phase this TU may automatically **remove 1d6 suppression markers**.

Dig in (supplement 2): Light cover +1 turns into **heavy cover +2** and heavy cover turns into heavy **PLUS** light: **+2 and +1 = +3 DV**. In a building, (see page 115) the damage to the building, if any, stays the same, but the infantry component of the result is shifted down one level of severity (1, becomes 0, 2 becomes 1 up to 7 becomes 6). If this infantry unit is hit in a vehicle, **no advantage**. Also applies to a Towed Crew-Served Weapon: **any cover is +3 DV** and add to their survivability in buildings as per infantry.

A Shaper of Men: Once per turn, select ONE TU **+1 QV** for EVERYTHING until the end of the turn.
